

SUMMER READING ROCKS!

What better way to spend those lazy days of summer!!! Your 6th grade teachers hope you will read **one** or more of the following selections this summer. The teachers are anxious to hear what you have to say about these titles next fall. Please select at least one book to read from the list below. Be careful- some books are a series, so you may find yourself reading all summer. If you begin a book and it doesn't grab you, try another book!! Read what your teachers and fellow classmates have to say about some of the titles...

Crispin: At the Edge of the World
"I usually don't like historical fiction, but I could not put this book down!"
- Mrs. P. South M.S.

Wringer
"It's a book that's hard to put down. *Amazing* in one way to describe this book. Jerry Spinelli is a writer that keeps you on your toes at all times."
- Mrs. P. South M.S.

The Boy Who Lost His Face
"You will feel David's pain as he struggles to fit in and makes some poor choices in the process. Another "can't miss" from the author of *Holes*."
- Mrs. P. South M.S.
